

MOHAMMED ALHAWAMDEH

FULL STACK DEVELOPER

mohawamdehtech@gmail.com | +905343359042 | Eskişehir, Türkiye | linkedin.com/in/mohammed-alhawamdeh | mohawamdeh.tech | github.com/MohammedAlhawamdeh

PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience building responsive and scalable web applications using JavaScript/Typescript, React, NodeJs, and modern frameworks. Proven track record of translating UI/UX designs into intuitive user interfaces and implementing complex business logic. Experienced in Agile methodologies with a strong focus on code quality, system design, debugging, and cross-functional collaboration. Adept at both front-end and back-end development with expertise in performance tuning and microservices architecture.

SKILLS

Front-End: React, Redux, TypeScript, JavaScript, HTML, CSS, React Hooks, React Testing Library, Formik, Jest, Progressive Web Apps, Responsive Design, Unit Testing, Integration Testing

Back-End: NodeJs, Express, RESTful API Design, MongoDB, API Integration, Database Management, Microservices

DevOps & Tools: Git/Github, CI/CD, Azure DevOps, Version Control, Debugging, Performance Tuning, Continuous Deployment

Development Practices: Agile/Scrum, Test Driven Development, Component Design, Scalability, System Design, Code Review

EXPERIENCE

Software Engineer

Lloyds Banking Group (via AND DIGITAL consultancy)

09/2022 - 07/2025 | Halifax, United Kingdom (Hybrid Work Model)

- Developed responsive and user-friendly interfaces using React, Redux, and Typescript for financial applications, resulting in a 30% reduction in user-reported interface issues
- Implemented complex form validation and state management using Formik and Redux, ensuring 99.8% data integrity and a smooth user experience across all banking applications
- Designed and implemented reusable components that reduced development time for new features by 40% while maintaining design consistency
- Resolved critical state synchronization issues between application pages, decreasing data inconsistency incidents by 85% throughout the user journey
- Successfully delivered end-to-end features while navigating complex business logic and regulatory requirements in the financial services sector

- Established comprehensive testing strategies with Jest and React Testing Library for unit tests, and Selenium/Playwright for integration testing, achieving 90% code coverage
- Enhanced API error handling by implementing detailed schema validation, reducing critical error 500 responses by 65% and improving debugging efficiency
- Collaborated with cross-functional teams using Microsoft Teams and Jira to ensure efficient communication in a hybrid work environment

Associate Product Developer

AND DIGITAL

03/2022 - 01/2025 | Halifax, United Kingdom (Remote)

- Developed the Health Check feature using React and Typescript, enabling club executives to view health metrics for client engagements, increasing project visibility by 45%
- Created an intuitive dashboard that reduced executive reporting time by 35% and improved data-driven decision making
- Participated in Agile ceremonies and regularly demonstrated completed work to stakeholders, receiving 95% positive feedback on presentations
- Proactively expanded technical capabilities by taking on challenging work outside my comfort zone, including back-end development and system design
- Conducted user research sessions with 20+ stakeholders, creating tailored documentation that improved feature adoption rates by 50%
- Utilized Slack, Zoom, and Azure DevOps to maintain seamless collaboration in a fully remote work environment
- Mentored 3 junior developers, helping them improve their front-end development skills and adopt best practices

Professional Development & Relocation

Self-Employed

01/2025 - Present | Eskişehir, Türkiye

- Successfully managed international relocation from the UK to Turkey, maintaining professional skills through self-directed learning
- Developing personal portfolio website (Mohawamdeh.tech) using React and Typescript to showcase projects and technical capabilities
- Contributing to open-source projects to maintain and expand development skills during transition period
- Exploring microservices architecture and containerization technologies to broaden technical expertise

Career Transition & Skill Development

Self-Employed

11/2020 - 03/2022 | United Kingdom

- Relocated from Jordan to the United Kingdom to pursue advanced career opportunities in software development
- Focused on English language proficiency development to enhance communication skills for the UK tech market

- Built several personal projects using React, NodeJs, and MongoDB to strengthen full-stack development capabilities
- Practiced algorithm problem-solving daily, completing 100+ challenges to improve technical interview readiness
- Completed advanced courses in React, Typescript, and testing methodologies to align skills with UK market demands

Junior Software Developer

Luminus Technical University College

05/2020 - 11/2020 | Amman, Jordan

- Integrated Zoom APIs with the university's Content Management System, developing frontend components for data visualization that improved virtual classroom access for 2,000+ students
- Developed an API monitoring system that reduced integration failures by 40% during the university's rapid shift to online learning
- Mentored 15+ students as a teaching assistant, helping them understand web development fundamentals with 90% passing their assessments
- Created comprehensive documentation for the Zoom integration, reducing support requests by 60% and enabling smooth onboarding for new staff
- Collaborated with the IT department to implement progressive web app techniques that improved mobile responsiveness by 70%

EDUCATION

Luminus Technical University College

11/2019 - 04/2020 | Amman, Jordan

Advanced Software Development in Certified Full Stack Developer (900 hours - 8 months)

Tafila Technical University

09/2011 - 01/2016 | Tafila, Jordan

Bachelor's Degree in Civil Engineering

PROFESSIONAL CERTIFICATIONS

- **Advanced React and Redux** (Udemy, 2023)
- **Typescript Masterclass**, 2022)
- **Nodejs Backend Development**, 2021)
- **Test-Driven Development with Jest**, 2022)

LANGUAGES

- **Arabic:** Native Speaker
- **English:** Fluent Speaker
- **Turkish:** Intermediate
